

# Brexit Gruppenliga?

Our Empire is not in London. Our residence is Martinsee, but our Chairman is also blond - like the Bobbele from the island.

And our only assen *Gemeinsamkeit* is, to leave the united Teams of the Gruppenliga. We wanna make our "eischen Ding" in the Regionalliga, do you understand so wide?

Sometimes we saw the things a little bit grey, but today there was a lot of sun on the Bahn! Our guests are from the SKV Millhome, a very good team with great players! But we got great players too. For example: **Jürgen Overleitner**! He spend today 892 of the wooden Pins and so he attenuate the not so gute 859 Pins of **Patrick Smith**. In the middle of the road, there is still our champion: **Norbert Rainfood**. He was blessed with the best result of the Samstag: 945 Pins! Our captain of the match is always **Many Ripmountains**. In front of the game he said: " go out and keschelt what the stuff hält", and the whole team answered: " SIR, YES SIR"! He himself erkeschelte very gute 891 Pins! But damit not enough! At the end, was eischentlich the Anfang von the dream is, completed **Prince Filip** (862) and **Ralph Witchman** with genial 938 Pins the game!

We are not on the woodway ;-)

If we really wanna leave the Gruppenleague?

The **Small Klaus** starts with strong 437 Pins! And weil **Mr. Noll** not lumping himself, he made gerade mal 3 Pins wenischer! Mister **Hall-of-Live** spends 422 Pins, but bock was shot down by the **Bockmans Patrick!** With 461 Pins he runs wild as he can ;-)

The game at the end of the ass ends
